

# Investing for Success

**Under this agreement for 2022  
St Lawrence State School will receive**

**\$7,318.00\***

## This funding will be used to

- Ensure all students are independent and capable learners that can articulate their goals and next steps.
- Enable a variety of differentiated teaching and learning strategies to engage students and allow all students to experience success.
- Create a safe and supportive optimal learning environment, in which students feel safe and supported to express and communicate emotions.

## Our initiatives include

- Provide targeted differentiated learning programs, materials and technologies so that the needs of all students are catered for (specifically those students are in out-of-home care or on an individualised curriculum plan).
- Utilise regional support and other forms of professional development to build staff confidence and capability in pedagogical practices and how to best support our learners.
- Creating and utilising school wide common language for communicating and expressing emotions and building strategies for students to self-regulate their behaviour.

## Our school will improve student outcomes by

- Providing teacher aide hours to allow one-to-one support provisions within the classroom for students who are on an individualized curriculum plan or in out-of-home care to enable an inclusive classroom in which every student experiences success.
- This support will allow teachers to be able to differentiate tasks and utilize a variety of pedagogical practices to ensure student needs are being met.
- Students will have access to their curriculum and have every opportunity to succeed, with success students will feel more confident and capable learners in the classroom.
